ADAPTABLE BLENDED SOLUTIONS

Whether you're wrangling thousands of employees across multiple sites or you're a small business looking to train a workforce five strong, our solution is the right amount of robust, with both online and "blended" or hands-on training for healthcare.

Here's what you can expect from it:

WORLD CLASS TRAINING.

With MedTrainer managing regulatory training has never been easier. Easily choose from our library of over 100 courses to assign to a single user or a group of users. Automate training reminders, notifications and refresher courses and generate certificates of completion automatically upon user completion of each learning activity.

POLICY AND PROCEDURE MANAGEMENT.

Every organization has policies and procedures specific to their organization. With MedTrainer you can upload your policies and assign them to users for digital signatures in order to make sure your staff stays informed.

SAFETY PLANS AND INCIDENT REPORTS.

Creating safety plans and Incident reports for your organization using MedTrainer's intuitive creation tool. The tool allows administration to create, update, manage and assign safety plans and incident reports with a few clicks of the mouse creating efficiency and streamlining the process. Plans range in topics covering items like Fire Prevention, Injury Illness and Prevention, HIPAA Business Associate Agreements and much more.

CREDENTIAL MANAGEMENT.

Managing employee credentials can be a job in itself. MedTrainer's credentialing center creates a simple to follow credential management system for monitoring offline credentials such as employee licenses, health screenings, CPR / First Aid and much more.

GROUP LEARNING.

If you require the ability to train employees in a physical group MedTrainer has you covered. MedTrainer's group learning tool easily allows for trainings to be completed in a group setting while allowing all attending individuals to obtain a certificate of completion.

SDS MANAGEMENT.

Managing SDS sheets amongst all locations is a breeze with MedTrainer. With over 1 Million SDS sheets in our proprietary library you have access to all the SDS sheets you will ever need and can digitally store each of them for easy access for employees and administration alike.

CUSTOMIZATION, JUST FOR YOU.

The MedTrainer system allows for customization specific to your needs. MedTrainer's customization department assists thousands of users in making MedTrainer customized to their needs. You can create your own custom courses with competency quizzes, bundle courses into permanent curriculum tracks, customize policies and procedures and much more.
